Announcing the Shift Network
Transforming Aging Tele-Summit
March 7-9, 2017
Hosted by Center for Conscious Eldering Director
Ron Pevny

Learn from leaders whose work and wisdom are supporting an
empowering vision for aging in today's world --
and it's free!

The Center for Conscious Eldering is delighted to invite you to participate in a groundbreaking educational experience March 7-9 when The Shift Network will present its third Tele-Summit on aging. The first two Summits, hosted by Ron Pevny, reached 30,000 listeners who uniformly gave it very positive evaluations. So the Shift Network has asked Ron to organize and host a third Summit, featuring leaders who are making key contributions to empowering people to live through their later chapters with awareness, purpose and intention. During this groundbreaking event, **18 passionate thought leaders with diverse perspectives and approaches will be interviewed by Ron Pevny, Director of the Center for Conscious Eldering.** What all of these leaders and approaches have in common is a commitment to transforming modern society's view of aging so that the vast potential for people to grow, serve and thrive as we age is honored and supported.
